

CHANGING MATH SEQUENCES in Semesters

A change of major may necessitate transferring into a different math sequence, and may result in the students having to take additional math courses.

Changing to the 1130/1131 sequence:

- If credit for Math 148 or with a C- or better in 1148----->go to 1131
 *With caution: Students should review functions and cover chapter
 on mathematics of finance.
- If a D+ or D in 148 or 1148----->go to 1130
- If credit for Math 150 or with a C- or better in 1150----->go to 1131
- If a D+ or D in 150 or 1150----->go to 1130
- If completed Math 151.xx or earned a D+ or D in 1151----->See a Math Advisor
- If C- or better in Math 1151----->then done w/math
- If completed Math 116 or 1116, check the student's math placement level:
 - if course code R----->go to Math 1075 (unless already taken), then 1130
 - if course code N----->go to Math 1130

Changing to the (1148 & 1149) or 1150 then to the 1151 sequence:

- If credit for Math 130 or 1130 ----->go to 1148
- If credit for 131 or 132 or 1131----->See below
 - If placement level L, then may enter 1151.
 - If placement level M, then go to 1150 before 1151.
 - Otherwise, may enter 1148, then 1149 before 1151.
- If student has completed 116 or 1116 check math placement results:
 - if course code R----->go to Math 1075 (unless already taken), then 1148
 - if course code N----->go to Math 1148
