MATH 2194

HIDDEN FIGURES

This new service-learning course is inspired by the best-selling book and blockbuster film *Hidden Figures: The American Dream and the Untold Story of the Black Women Mathematicians Who Helped Win the Space Race.*

- Connect with industry leaders in STEM fields
- Study diversity and inclusion in mathematical communities
- Understand the mathematical tools used in the Space Race
- Explore the intersections of mathematics and society
- Get involved in a community service project
